**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 21 November 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Claim Objections***

Claim 30 is objected to because of the following informalities: on line 9, it appears that “fist” should be “first”. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

Claims 23, 24 and 26-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 23 and 24, it is unclear as to which “brake” the recitation “the brake” is referring to. Is it referring to the brake between the first and second gripper or the brake on the first gripper?

With respect to claim 28, line 2, the recitation of “the spool” lacks positive antecedent basis in the claims.

With respect to claim 29, line 2, the recitation of “the second and third radius” lacks positive antecedent basis in the claims.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3654

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22-28 and 30-33 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S.

Patent no. 6,089,493 to Moore.

Moore discloses a winder for tensioning a strand of material being wrapped around a tank 12 in order to pre-stress the tank 12, the winder 10 being connected to a tower traveling around the tank 12, the winder 10 comprising: a first rotating gripper 20 engaging the strand of material at a first, constant radius; a second rotating gripper 39 downstream of the first gripper and engaging the strand of material, the second gripper 39 using a differential winder to apply a tension to the strand which leaves the second gripper; a brake 33 between the first and second gripper; a brake (see Figure 10) on the first gripper 20 to vary the rotation of the first gripper 20 and vary the tension in the strand of material between the first 20 and second 39 grippers.

#### ***Allowable Subject Matter***

Claims 5-11 and 21 are allowed over the prior art of record.

Claim 29 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 29 would be allowable over the prior art of record because the prior art of record does not teach or fairly suggest the entire combination of elements set forth including a sprocket with two different pitch circumferences corresponding to the second and third radius.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
